About Udaipur : The city of Dawn, Udaipur is a lovely land around the azure water lakes, hemmed in by the lush hills of the Aravalis. A vision in white drenched in romance and beauty, Udaipur is a fascinating blend of sights, sounds and experiences-an inspiration for the imagination of the poets, painters and writers. Its kaleidoscope of fairy-tale palaces, lakes, temples, gardens and narrow lanes strewn with stalls, carry the flavour of heroic past, epitomising valour and chivalry.

About ACES

Aishwarya College of Education Sansthan a multi faculty premier Institution with highly qualified academicians imparting education in different professional fields. Through an eventful 18 years, ACES has pursued the quest for expanding the horizons of learning & education, through Aishwarya Institute of Management and Information Technology (Affiliated to RTU, Kota; Approved by AICTE), Aishwarya College (Affiliated to MLSU; Approved by UGC), Aishwarya Teacher's Training College (Affiliated to MLSU; Approved by NCTE), Aishwarya Primary Teachers Training School (Affiliated to Dept. of Secondary Education, Bikaner), Aishwarya Public School. Sansthan is also an institutional member of CII, CSI & ISTD, it runs CSI student branch & Rotaract Club besides Aishwarya Goldenshake Club.

AISHWARYA INSTITUTE OF RESEARCH & DEVELOPMENT STUDIES (AIRDS) a constituent of Aishwarya College of Education Sansthan (ACES) established in 2009 is committed to the development of scholars who will carry forward productive research on technological, scientific and social issues that characterize the challenges faced by the contemporary world. AIRDS works in the fields related to Economy, Education, Environment, Management, IT, Social Sciences, Humanities etc. including other evolving contemporary issues within a multi-disciplinary frame-work. With its multidisciplinary ethos the institution provides a great diversity and scope for innovation to a researcher; it simultaneously aims at transforming students into professionals whose breath of knowledge can help them solve the complex problems of the real world.

ABOUT THE WORKSHOP

With the changing needs and quality assurance in Higher Education in form of accreditations/ recognition from significant bodies like NAAC/UGC/AICTE as well as inculcation of research aptitude among faculty members and students, with further percolation of the research outcome to the beneficiary/society - there is a wide support provided by various bodies like Indian Council of Medical Research, Indian Council of Agricultural Research, Indian Council of Social Science Research, Council of Scientific and Industrial Research, Tata Institute of Fundamental Research and many more. In order to utilize the grants/funds available, faculty members need to be trained and developed in this direction, whether it is university colleges or affiliated colleges.

The University Grants Commission strives to promote teaching and research in emerging areas in Humanities, Social Sciences, Languages, Literature, Pure sciences, Engineering & Technology, Pharmacy, Medical, and Agricultural Sciences etc.

There are disciplines such as defense and strategic studies which include national security affairs, insurance and banking, economics and world trade which in a true sense are multi-disciplinary in nature, cutting across disciplines of sciences, humanities and social sciences, and are of importance in a rapidly changing global scenario.

These and allied disciplines need to be studied and researched in a more organized manner. Institutionalisation of such activities is a need of the present times.

SIGNIFICANCE : Higher Education institutions have the responsibility to enable faculty to undertake research projects useful to the society. Serving the community through

extension, which is a social responsibility and a core value to be demonstrated by institutions. The process of promoting research culture among faculty and students can be ensured by facilitating participation in research and related activities, providing resources and other facilities.

INDUSTRY : Present-day R & D is a core part of the **modern business world**. Major decisions in firms are made on base of research and development. Research and development is of great importance in business as the level of competition, production processes and methods are rapidly increasing. Research has shown that firms with a persistent R&D strategy outperform those with an irregular or no R&D investment program. Johansson; Loof (December 2008).

Unfortunately, research and development are very difficult to manage, since the defining feature of research is that the researchers do not know in advance exactly how to gain the desired result.

About the expert

Prof. Karunesh Saxena, Director & chairman Faculty of Management Studies, MLSU Udaipur. After completing his MBA in the year 1984 from Sagar University Madhya Pradesh (M.P.), he Joined Multinational Companies to acquire 5 years working experience of the corporate world, decided to join academics in 1989 and has served various universities of repute such as Jammu University, Vikram University, Ujjain, IGNOU, New Delhi.
