About the Organizers

Aishwarya College of Education Sansthan with its units AIM & IT, APGC and ATTC affiliated to RTU, Kota and MLSU, Udaipur regularly organizes activities to build up research aptitude and related issues among the research scholars and faculty members of higher education institutions for past 22 years. In sequence to the FDP on Research Methodology organized during June 2018, it has proposed to organize the awareness workshop on Intellectual Property Right during March 2-3, 2019. The important event for researchers to protect their results & development in the digital era will educate them on the major and important issues of protections. The event is sponsored by the **Ministry of Electronics and Information Technology, Government of India New Delhi.**

President	Dr. Seema Singh
Director	Dr. A. N. Mathur and Dr. D. S. Chundawat
Coordinators	Dr Archana Golwalkar and Dr. Rashi Mathur

About the Workshop

The research plays a vital role in development needs of the country, science & society and in academics it is the backbone of earning higher degree. There are several agencies which identify priority research areas and sanction projects. Similarly, the scholars formulate their research plans. In both cases the requirement of the monitoring agencies is that the research done needs to be of very high standard. It is expected that the research proposal and the output are genuine and of high quality which has an impact on the society. Research is complementary to teaching; as such it is necessary that they are synthesized for better implementation and result.

Topics to be covered: Policies of Government of India with special reference to Miety, IPR in Udaipur Industries, initiatives in sensitizing the issues and IP protection in ICTE sector. IPR Processes for R & D Technologies, Entrepreneurship including incubation, Start-up and Make in India. Patent and IPR applications. IP Right development in Industry. Basics of Trades and confidentiality, global, national, state and other issues, emerging issues with reference to IC designs, creation and other indicators. Issues & Perspectives in Patent in Trades and Industries, the need of Intellectual Property Rights. Digitization & IPR for economical growth including legal issues. Policies for promotion of IPR in Minor, Small and Medium Industries in ICTE. Patent and Scope of IPR in Academic Research. Patent Expert Issues: Roadmap – layout

and design of IC including chips & microchips, patenting of software. Patent mission, Patent Analysis and Management System portal. Method of filing patent Application, Opportunities in ICT processes, Copy right, Trademark - Challenges in the Digital Era. Prior Art Search and Process learning for IPR for ICTE sector. IP Values and commercialization. IP Strategy.

Expected Outcome: This interactive programme will help you by improving your understanding of IPR Protection, copy right, Patenting with special reference to ICTE in digital era. The workshop will be based on expert's lectures and engaging participants in interaction.

Who should participate?

The Workshop has been designed keeping in view the felt need among academicians, researchers and consultants to strengthen their research protection and safety of their data and development.
