About Udaipur

Udaipur, the city of lakes known for its scenic beauty, stands top on the world map. It is a city known as a hub of education, a city of universities and professional colleges, having the IIM Institute on the top, Udaipur has moderate climatic conditions and has easy approach by road, rail and airway. You will have a heavenly experience by visiting the exquisite locations like Fateh Sagar, Picchola Lake, City Palace, Jagdish Temple, Bhartiya Lok Kala Mandal Museum, Sahelion Ki Bari, Pratap Memroial, Sajjan Garh, to mention a few spots.

The peripheral Udaipur has many attractions as world famous Jai Samand Lake (48 km.), Kumbhal Garh (90 km.), Ranakpur Jain Temple (90 km.), Nathdwara Temple (48 km.), Haldighati (40 km.), Chittorgarh (110 km.) etc.

AISHWARYA COLLEGE

In the fast evolving modern world, at the cusp of Globalization, Aishwarya College was established in 1996 in Udaipur with the objective of bringing revolutionary innovations in the field of education. It was the first college of IT to be established in the City of Lakes. Right from its inception in 1996, Aishwarya College has been a pioneer in the field of Computer Science, gradually evolving into various disciplines like Management, Commerce, Science & Teachers Education through four colleges like **Aishwarya Post Graduate College, Aishwarya Teacher's Training College, Aishwarya Primary Teacher's Training College and Aishwarya Institute of Management & IT**. Through Aishwarya Microsoft IT Academy, the Institute aims to prepare the students for the competitive Industrial world, besides starting the Aishwarya Institute of Research & Development Studies with the object of promoting research studies. Extending the vision of pursuing excellence in education Aishwarya College has now started its own school, Aishwarya Kids Valley, with the aim of providing education to the students from Nursery to Post-graduate Level under one umbrella.

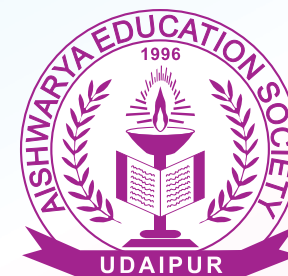

The Institute has leveraged the power of IT to make learning informative and entertaining. The Labs are well equipped with the necessary infrastructure. Computer Labs are equipped with approximately 120 state of the art machines from HCL/HP with LCD/TFT monitors, Pentium-IV processors, multimedia machines and all necessary peripherals. Broad Band (BSNL) Internet facility is provided to the students. The college has an Aptitude Lab designed to enable students clear Aptitude Tests, an English Lab designed to enhance student's English language skills and a Career Lab designed to impart the crucial career skills to students to make them confident and successful in career as well in life.

Aishwarya College has developed adequate student Support Systems like regular medical check-ups, separate hostel accommodation for girls and boys, a hygienic Canteen, adequate Games and Sports facilities. The special focus of the Institution towards Student Welfare has led to the establishment of well-developed systems like Student Help Cell, Central Counseling Cell, Personality Development Cell, Training & Placement Cell.

Moving forward with the aim of utilizing the power of IT, Aishwarya College has implemented unique Educational ERP, “Smart Campus”, which integrates all the academic activities of the Institution for a seamless management of the students & staff to attain the academic goals of the Institution through Smart Cards & Smart Card Readers installed at various points in the campus.

National Conference on *Educational Reforms: Insights and Analysis*

1 - 3 October, 2010

AISHWARYA COLLEGE

Selected papers will be published in
Aishwarya Research Communication Journal
(ISSN : 0975-3613)

Last date for submission :

Full length paper including abstract with registration form : 10 September 2010

Theme

Education is a continuous process of learning. It is very natural that for the growth of a society and nation, changes in educational field have to be incorporated from time to time. With the ushering in of liberalization, privatization and globalization we cannot stick to traditional, obsolete, out dated-system and hope to compete with the developed nations in the changing scenario.

This brings to the fact that Reforms have to take place for improvement, embellishment, enlightenment and make us more competent, to be at par with others in the race of modern changing educational scenario.

While bringing the reforms in the educational field we have to keep in mind not only the individual scholar but also the New Technology, Trade and Commerce, Managing Expertise, Fine Arts, Social Sciences and Humanities which are the indispensable components to form a nation, without which a society cannot grow to its fullest. A teacher, a scientist, an artist, a researcher of technical field, an expert of management, commerce and other fields can play the role of visionaries for nation building and bring change and acceptability in the field of education.

From Traditional Examination to Semester Scheme, Continuous Evaluation System, Internal Testing, Grading System, are some of the efforts made in the direction of reforms.

Reservation for the weaker sections in private schools, imparting compulsory primary education with quality, the execution of National Curriculum Frame Work of 2005 (it had a huge process of public interaction before the frame work was put in place), common syllabus, stopping corruption and malpractices in the temples of education are some of the ideas thrown up by Honorable HRD Minister, Mr Sibal, and can be amended and attended with public debate. Thus, a need to take an initiative and analyse such educational reforms (in all sectors) by deliberating upon their value and worth, and contribute to building New India.
